We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. longer endorsement we could not give.—*Home Journal.* jan15,'69.

The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following ports, viz:

	Population.
Canton	1,000,000
Macon	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree renumerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

Hoofland's Column.

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia.

Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON.

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eigth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 per bottle; Or, a half dozen for $5.

Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the

FARM AND HOUSE.

The Farmer's Workshop.—No reasonable farmer will dispute the importance of having a workshop upon his premises, and especially those who have boys to bring up. Boys will be busy, and if opportunity is not given for a full employment of their time, either with work or sport at home, they will seek diversion abroad, which will not usually result profitably. A farmer gives his experience and opinion upon the matter in the subjoined sensible talk:

How many farmers do we find that have not the ingenuity to repair a rake, or other small farm implement. Were they brought up on a farm?—Yes. Well, then, why is it? Some may say they are of that unfortunate class of mortals that are not gifted with their share of ingenuity. This is a great mistake. If you will take the trouble to inquire of them what they spent their time at when young, they will tell you farming. Was their father a farmer? Yes, the best in the neighborhood, they may say. Well what did he employ himself and boys at rainy days? "O nothing; when it rained too hard to work we generally spent our time at the village, in the stores and tavern. You know that boys want rest some times." Very true, but is there no other enjoyment for boys than at the tavern and stores? Had the father had a workshop, with a select lot of tools, would not those boys have had some job for a rainy day; such as a little cart, sleigh, wagon, or boat to make or repair? There are very few boys who do not have such things to make. Thus by having a small workshop, boys soon acquire a taste to handle tools, and tinker up many little playthings of their own.

When older, the knowledge gained will be of great service to them in making and repairing implements on the farm. But there are habits which they acquire in spending their leisure time at the village, which is the ruin of many a promising boy, for where do we find a village now, in which there is not one of the taverns, where the temptation appears to be strong judging from the numbers we generally find in them getting spirituous liquors to drink?

When will farmers learn to make their homes attractive for their boys and themselves? A few good books, one or more good agricultural papers, and last, but not least, a workshop.—*Ohio Farmer.*

A Home of Your Own.—An exchange very appropriately remarks that every poor laboring man should buy himself a town lot—got that paid for, and then work to add the necessary improvements—a little here and a little there will in due time produce you a home of your own, and place you outside of the landlord's grasp. Remember that $50 a year saved in rent will in a very few years pay for your own home and the money it costs you to move and shift about, will without any loss of furniture and of time, pay the interest of a five hundred dollar judgment against your property until you can gradually reduce it to nothing. You can all buy in that way—why do you not risk it? If you fail you are no worse off—if you succeed, as any careful man is sure to do, you have made a home and established a credit equal to another which will start you in business. Poor men, take our advice, buy one of the lots now offered for sale and see how much better it will be for you and your family five years after this.

Card The Cows.—One would think that any kind-hearted man, when he sees how grateful this operation is to a cow, would be willing to spend a few moments in carding her. It pays as well to clean a cow as a horse. All who have fairly tried it find great benefit from the operation. And not one farmer in a hundred makes it a practice to use the card or curry comb in the cow-stable. We know stupid men who laugh at the idea as a mere notion of some fancy farmer. But, in point of fact, no cow can give the best results at the pail unless this matter is attended to, especially in winter.

Sunflower Seed.—It is said that small quantities of sunflower seed mixed with the food of a horse will impart a fine gloss to his hair, while it is a sure cure for founder, if given immediately after the ailment is discovered. In the latter case, about a pint of seed should be mingled with the oats or chopped feed, when a cure will be effected.

For a young man who is thoroughly in earnest, farming offers a grand field for effort; but the man who is only in earnest, who thinks that showy surroundings are the great object of attainment, will find that the results of his farming operations are not very encouraging.

Honey Cake.—Three quarts of honey; half a pound of fine loaf sugar; a quarter of a pound of citron; a half ounce of orange peel, cut small; of cinnaman and ginger, each half an ounce; four well beaten eggs, and a pound of sifted flour. Melt the sugar with the honey and mix. Roll out the cakes, and cut in any form.

Sponge Gingerbread.—A pint of molasses, a teacupful of sour milk or butter milk, a tablespoonful of saleratus dissolved, and flour sufficient to roll. Cut it about half an inch thick, and bake in a quick oven.

Sponge Cake.—Ten eggs; their wieght in sugar, the weight of seven eggs in flour. Beat the whites and yolks separately, then add sugar and flour. The last thing before baking, add the juice of one lemon; one spoonful of saleratus.

Robinson Brothers, of Makanda, Ill., gathered five tons of grapes from 900 three year old vines this year.

BLITZ AND THE DARKIES.

Blitz! The very name is synonymous with witchcraft and roguery. What a twank of jugglery there is in its pronunciation! *Presto change!*—magical words in themselves—are no more identified with miraculous deeds than that of Blitz. He is the prince of conjurors, and adds to his wonderful dexterity at legerdemain the most remarkable power of the human voice known as ventriloquism. Blitz is an arrant joker, and loves to carry out a practical joke of fun. For some weeks past he has been frightening the market men in New York by causing their dead poultry and dressed pigs to talk all sorts of stuff, and to make formal complaints of the untimely end to which they had been brought. One butcher after throwing a half dozen turkeys into the street because they would gobble, though they were as dead as a door nail, was saluted with a terrible grunt from a young pig that he was offering for sale all clean and dressed for the table. Frightened half out of his wits, the market man fairly "cut stick," nor would he come back again until piggy had been removed.

But the naughtiest thing that Blitz ever did was to disturb a negro meeting some years ago in Belknap street, Boston. The story is not generally known, as it would, perhaps, have led to some personal trouble to him had it been represented to the authorities.

All Boston knows or has heard of the negro preacher, Father Snowden, who held forth to his colored friends in Belknap street for so many years. It was a quiet summer's afternoon, when the house was pretty well filled—there being a revival of religion going on—when Blitz and some other persons (although he is himself as dark as a mulatto, and has "curly hair," to boot) entered the house. It was pretty warm weather; but things went on nicely enough until the minister got warmed up in his subject, and was using words almost too big for a common sized dictionary, when Blitz thought it about time to do something.

"And the Lord said unto Moses"—

"Bow-wow-wow," came apparently from behind the speaker.

The congregation looked each other in the face with countenances darker than ever, while Father Snowden, after staring behind himself, seemed to come to the conclusion that the noise proceeded from the street, and so he commenced again.

"And the Lord said unto Moses"—

"Ain't you ashamed of yourself!—take your hand off me!" said a voice apparently proceeding from a very neat mulatto girl, who sat in the front pew, and upon whom all eyes were now turned.

"I didn't touch yer," said the man next to her in amazement.

Some smiled and said, "Sam Johnson ought to be ashamed of himself to act so in meeting," and the minister frowned upon him in a way that would have thawed a snowball outright, after which Mr. Snowden attempted once more to resume his remarks.

"And the Lord said unto Moses"—

"Well, what did he say?" came suddenly from the lips of an attentive listener in the side aisle.

The minister was astounded. He looked at the man as though his boldness had electrified him, and some of the congregation began to think that under the circumstance the inquiry was a very natural and appropriate one. As to the minister himself, he was a little vexed now, and repeated with emphasis:

"And the Lord said unto Moses"—

"Fire! Fire!" roared a voice, which seemed to come from the entrance to the house, with startling earnestness.

This was too much to bear tamely.

Even the minister rushed to the door, and the affrighted women screamed as if they were mad, and they huddled and pushed each other out of the pews and down the aisle. Bonnets suffered some on the occasion; and when they all got fairly out, they looked up to the top of the meeting house patiently to see the flames burst through the slated roof.

And there Blitz left them standing, their eyes rolled heavenward, and Parson Snowden in a *brown* study.

ADVICE TO GIRLS.—Young ladies, the whole secret with nine-tenths of you, of not being able to secure good husbands, is simply that you do not know how to work. You have no knowledge of practical house keeping, and consequently are useless as helpmates. Instead of being an assisstant to a husband you are an obstacle to his success. Your style of living, too, is incompatible with his means. You want to begin house keeping as your parents left off, not as they began, and there are few young men who have not already a good income, can afford to marry you.

There are no possible objections to the accomplishments of music, painting, and the like, as such, but the idea is to be able to set these prior amusements aside, for the stern duties of married life call for your practical knowledge. Show the young man that you can do your part as double business, and that you will not be a dead expense to him through life. Believe us, young friends, as many true, patriotic, womanly hearts beat over household duties as flutter beneath the soft light of a parlor chandelier. Your kiss is just as sweet, your smile just as bright, your heart as happy and tender after a days exertions in a sphere worthy of true womanhood, as in the place of dissipation, frippery and silly amusement. Have an ambition to do your part in life, cultivate industrial habits, and let the parlor accomplishments go with the higher accomplishments we have roughly enumerated. It is astonishing how soon a domestic young lady is found out and appreciated. It is because she is such a rare exception to the general rule.

HOW TO MAKE A WIFE UNHAPPY.

See her as seldom as possible. If she is warm-hearted and cheerful, or if after a day's or a week's absence, she meets you with a smilling face, and in an affectionate manner, be sure to look coldly on her, and answer her in monasyllables. If she repels her tears and is resolved to look cheerful, sit down and gape in her presence till she is fully convinced of your indifference. Never think for a moment that you have anything to do to make her happy, but that her happiness consists in gratifying your caprices, and when she has done all that a woman can do, be sure you do not appear satisfied. Never take an interest in any of her pursuits, and if she asks your advice, make her feel that she is troublesome and impertinent. If she attempts to rally you good humoredly on any of your peculiarities, never join in the laugh, but frown her into silence. If she has faults—which undoubtedly she has, and is ignorant of—never attempt to correct them, but be certain to continually obtrude upon her ears, "What a good wife somebody else has, and how happy a man must be with such a wife." In company, never seem to know that you have a wife—treat all her remarks with indifference, and be very affable and complaisant to every lady present, except your wife. If you strictly follow the above direction, you may be certain of an obedient and broken-haerted wife.

AFTER AN OFFICE.—Yesterday a sable representative of the "best government in the world," surmounting the elevated seat of a dilapidated carryall, drove up to the central station in this city, and inquired for the "boss." The unique vehicle contained his ancient dame and two diminutive scions of the "house." A quadruped which a very polite man, with a due regard to the sensibilities of the animal, might dignify with the distinctive appellation of mule, had the honor of pulling the conveyance and its loyal freight. Word being conveyed to Captain Cain that a visitor wished to see him on business of importance, that gentleman soon made his appearance.

"What do you want?"

"Git to stop with you, boss!"

"Want to stop with me?" inquired the astonished officer.

"Yes, boss; jis for all night."

"Oh! you want to stay at the station to-night?"

"Yes, sar."

"But where are you going with all that plunder?"

"Goin' to Washington, sar!"

"What Washington—not to Washington City?"

"Yes, sar, dat's de place, where de President is!"

"What in the name of Heaven are you going there for?"

"Well, you see, boss, Massa Grant's got de place now, and dey say we colored folks gwine to get all de offices when he gets in; so I's gwine to see if he won't make dis chile gub'ner!"

It is needless to say that the colored "gemman" was hospitably entertained, and sent on his way rejoicing.—*New Orleans Picayune.*

THE JOURNEY OF LIFE.—Ten thousand human beings are sent forth together on their journey. After ten years one third, at least, have disappeared. At the middle point of the common measure of life but half are still on the road. Faster and faster, as the ranks grow thinner, they that remained till now become weary, and lie down and rise no more. At three score and ten a band of some four hundred yet struggle on. At ninety, these have been reduced to a mere handful of thirty trembling patriachs. Year after year they fall in diminishing numbers. One lingers a lonely marvel, till the century is over. We look again and the work of death is finished.

CALIFORNIA FARMING.—The San Francisco papers complain that the yield of wheat in California has fallen from forty bushels an acre down to twenty bushels; and that, if the present improvident style of farming continues, the crops will not average over twenty bushels an acre. The old custom of burning the stubble and straw, instead of turning it into compost, has been revived. If the practice is not abandoned, the worn-out wheat fields of California, it is asserted, cannot be restored without great expense and the application of the best agricultural skill.

IT is asserted that a very "loyal" and very pious editor in Troy, New York, whose sympathies have always been deeply moved in behalf of the suffering negro, has suffered his own father to die in an Iowa poor-house, without sending him the aid he was amply able to furnish. The poor old man had the misfortune to be white.

"Jo, how many scruples are there in a drachm?"

"Don't know, Zur."

"Well, remember, there's eight."

Friday Morning, January 22, 1869.

PASTE SLINGING.

Last year it cost the people of Pennsylvania just $37,000 to pay for the pasting and folding of documents for the lower branch of the Legislature, there having been thirty four men employed to do the work. There was not enough for these to do, one Ilyus who was appointed a paster and folder not having gone near Harrisburg during the session except to draw his pay. Notwithstanding the fact, however, that thirty four men can easily perform the labor of the pasting and folding department, the radicals of the House of Representatives at Harrisburg, the other day, passed a resolution authorizing the increase of the number of these slingers of paste, "not to exceed twenty seven," which would have made just *sixty-one*, or one for each radical member, and would have added at least $29,000 to the expenses of the pasting and folding business.—Every radical member of the House voted for this resolution, whilst every Democrat except five voted against it. These latter are being rebuked and condemned by the democracy every where, whilst the body of the democratic membership, which stood firm against this attack upon the treasury, is being applauded by men of all parties from one end of the State to the other.

The indignation which burst upon the faithless men who showed their willingness to turn over the treasury to the harpies hanging around the State Capitol, has had the effect of stopping this resolution in the Senate. It has been reported with a negative recommendation in that body, and is dead for the present. The "roosters" and "pinchers" of the House, however, threaten to employ as many pasters and folders as seemeth them good, and to fight it out with the Senate on the Appropriation Bill. We shall not be astonished if they yet succeed in their nefarious purpose.

But the whole system is wrong.—Why appoint pasters and folders at a salary at all, when the work which they are paid such enormous amounts for doing, can be performed for one seventh the amount annually paid by the State? Why not give out the pasting and folding, by contract, to the lowest and best bidder? Messrs. Rauch and Cochran, of Lancaster, proposed to take the contract for the House pasting and folding for $5,000, and for both the Senate and House, for $7,500, and offered to give good security for the proper fulfilment of the contract. These men are publishers of a radical newspaper, and both of them are well known members of the radical party. Why did not their political friends elect these men, as they had the power to do, as pasters and folders for the present session? By so doing they would have saved the state from $30,000 to $40,000. The reason that the proposition of Messrs. Rauch and Cochran was not entertained, is, that each radical member of the legislature has some favorite to whom he has promised a position. Only this and nothing more. But must the people be robbed in order to accommodate these small-beer politicians?

A PROBLEM FOR PENNSYLVANIA SOLDIERS.

A table has been prepared by Hon. H. D. Washburn, member of Congress from Indiana, showing the number of additional bounty claims paid and rejected up to the end of last year. From this table it appears that Maine has had 53,200 of these claims paid, New York 45,031, and Pennsylvania 31,555. The disparity between the number of additional bounties allowed to Pennsylvania, is striking indeed. Our State furnished at least five times as many troops, during the recent war, as Maine, and yet comes in for but a little more than one-half the number of additional bounties paid to the latter State. What is the reason of this inequality? New York, too, although she furnished six times as many troops as Maine, gets some eight thousand less additional bounties. It is because Maine is a radical Yankee State, or because old Fessenden controlled matters in the departments as Washington, that this remarkable disparity exists. We hope our soldier friends throughout the State, will be able to solve the problem. Perhaps some of the radical politicians who profess to be their special friends, can give them a clew to the riddle.

GEN. Butler carried through the House a proviso in the diplomatic appropriation bill to abolish the three South American missions, and consolidate all into one. This throws out Gen. Kilpatrick. And a very good "throw out" it is.

GEN. Blair is of opinion that Grant will drive instead of follow; that he will be more likely to demand new powers than to relinquish the exercise of a single prerogative.

WHILE the radicals in Congress and in State legislatures are throwing down every barrier which shuts out the ignorant and semi-barbarous negro from the ballot-box, they are just as industriously employed in placing obstacles in the way of the white citizens of foreign birth. It is not necessary in radical estimation to register the unknown and unnamed field hands of Georgia, in order to preserve the purity of the ballot-box, but cunning enactments must be devised to impede the naturalized citizen on his way to the polls. It is marvellous that the adopted citizens of America do not perceive the combined knavery and hypocrisy which dictate the policy of the radicals on the question of suffrage. When it is necessary for the Radicals to hurl hundreds of thousands of brutal blacks on the ballot-box, universal suffrage is a glorious boon; but when citizens of foreign birth present themselves at the polls, the suffrage becomes a great evil, and radical statesmen put themselves to work to frame laws to render its exercise on the part of the foreign-born citizen as irksome, as difficult and expensive as their ingenuity can devise. The cant of radicalism about the "rights of humanity," when the question of voting plantations of anonymous negroes is under consideration, is quite different from radical cant about the necessity of sacredly preserving the purity of the ballot-box when the political rights of the naturalized citizens are discussed. The stupid negro can be employed in maintaining the radicals in power, and the laws of nature and the dictates of reason are disobeyed in order to give him suffrage. The intelligent foreigner, on the other hand, no sooner makes himself familiar with our political divisions, than he ranges himself on the side of the democracy, and he is pursued by all the hate which bigoted radical partisans know so well how to nourish. The citizens of foreign birth will be compelled to make common cause against their oppressors, and it will before long be impossible to find a radical Irishman or German with a lantern. To belong to that party is to be false to race and fatherland.

THE bill to repeal the Tenure-of-Office Act does not go down quite so glibly in the Senate of the United States as many anticipated. Mr. Wilson has introduced an amendment which does not materially alter the original act. It provides that during the recess of Congress the president shall have power to suspend an officer, and appoint a suitable person to perform the duties of the office until the next meeting of the Senate, and until the case shall be determined. The President shall within twenty days after the next meeting of the Senate, report such suspension, and if the Senate shall consent to the removal of the officer, he may by the consent of the Senate appoint another person in his stead. But if the Senate shall refuse to concur in such suspension the officer suspended shall forthwith resume his office.

THE DISTRICT of Columbia is to be the scene of the first experiment in female suffrage. A petition signed by Henry Wilson, Abby Kelley Foster, Lucy Stone and a great many more non-residents, but by no citizen of the district, has been presented in the Senate asking Congress to extend the privilege of suffrage to the females of the District. Negro suffrage had its first start in the District of Columbia, and now it is proposed to try on women's suffrage. What a blessing it is to the inhabitants of Washington and Georgetown to have a radical Congress to legislate for them!

BILLS for the regulation of the naturalization of aliens have already been offered in the State legislature, and as it is more than probable that some changes will be made in the present laws, it is to be hoped that before definite action is taken the matter will be so thoroughly digested that whatever is done will be an improvement upon the present system, and not merely a mass of incongruous patchwork, which will make "confusion worse confounded."

THE consultation between the Virginia committee and the members of Congress has resulted in an argument to prepare a bill for the admission of Virginia on her adoption of a State constitution with the disfranchising clauses stricken out.

FRELINGHUYSEN, of New Jersey, is one of the radical impeachment Senators, whom the people did not endorse. The Hon. J. P. Stockton will take the seat out of which he was defrauded by a radical Senate a few years ago. Thus does the whirligig of time bring about its revenges.

At New York, within the last fortnight, failures to the extent of about four millions of dollars have occurred among jobbing and commission houses in the dry goods trade. The recent failure of one of the largest dry goods houses was due to heavy losses through customers in the Northwestern States.

PERIODICALS.

THE DEMOCRATIC ALMANAC for 1869 has been received. It contains 82 pages of invaluable matter. It is especially useful to those who wish to keep themselves "booked" on important events of the year 1868. It contains complete election returns, lists of the Members of Congress, Impeachment trial, population of the States, &c. Single copies 20 cents. Van Evrie, Horton & Co., New York.

PETERSON.—The February number of this excellent ladies' magazine is on our table, and is replete with artistic skill and literary merit. "Miss Lilly's carriage stops the way" is a superb engraving while the fashion plate is unequaled. To subscribers for 1869 great inducements are offered. Address C. J. Peterson, 306 Chestnut st., Philadelphia.

MAYNE REID'S MAGAZINE.—"Onward," the title of Capt. Mayne Reid's new candidate for popular favor is before us. Reid's reputation as a popular writer is enough to insure the success of his periodical. It is beautifully printed and profusely illustrated. Published by Carleton, 497 Broadway, New York.

THE GALAXY.—The February number of this valuable periodical has been received. The Galaxy holds a high position among the monthlies of which it is well worthy. The present number contains the usual variety of interesting matter. Sheldon & Co., New York. $4.00 a year.

GODEY.—This Nestor of the Philadelphia monthlies is on hand, for February. The steel plate "Hush he Sleeps," is a beautiful home scene. The colored fashion plate contains six figures, equisitely gotten up. Apart from the handsome engravings, the literary matter is of the highest order.

MUSICAL.—We have received *Peters' Monthly Glee Hive*, for January, 1869, consisting of Glees, Trios, Quartets, Opera Choruses, &c. This monthly should go into every household where there is any musical talent. Worth double its subscription price $3.00 a year. Address J. L. Peters, Box 5129, New York.

PETERS' *Parlor Companion for Flute, Violin* and *Piano*, for Jan. 1669, has been received. This monthly is invaluable to all lovers of music. $3. a year. Address J. L. Peters, Box 5429 New York.

We acknowledge the receipt of the first number of a new Democratic weekly entitled the Philadelphia *Patriot*. It is a large, handsomely printed, and ably conducted quarto sheet, and promises to be a live worker in the good cause.

OUR GOLD AND SILVER PRODUCT.—The Round Table has an interesting summary of the doings of our gold and silver mines during the year 1868. The yield of placer mining has continued to fall off, but the extraction of the metals from the quartz rock has been prosecuted with increased skill and success. The various new methods of breaking the rock which have been tried in Nevada and Colorado have been abandoned for the old apparatus of stamps, which is not equaled in effectiveness by any of the more recent devices. The stamps are used, however, with greater care, as the finer the stone is pulverized the more thoroughly its precious contents are got out. In Nevada the most remarkable feature in the year's operations is the decrease in the product of the Comstock lode, discovered in 1865, and hitherto so surprisingly valuable. The deeper the rock is worked in that lode, the poorer it is found to be. On the other hand, the White Pine district, in Nevada, has furnished silver to the value of a million dollars during the last six months. In Idaho the profit of mining has been diminished by drought, while in California the business has suffered from too much rain. In all the new Territories the excessive cost of transportation and provisions has also checked the development of the mining interest; but after all, the yield of 1868 may fairly be stated as follows:

California	$20,000,000
Nevada	18,000,000
Montana	12,000,000
Idaho	6,000,000
Oregon	5,000,000
Colorado	4,000,000
Washington	1,000,000
Arizona	250,000
New Mexico	250,000
Total	$66,500,000

It is not too much to expect that more gold and silver will be produced in this country in the present year than the year that has just closed has been able to supply.

THE CIVIL WAR which has been raging in Japan since the beginning of the year 1868 is at an end. Prince Aidsen, the most powerful among the Northern Daimois, who, after the resignation of the Tycoon, continued the war against the Mikado on his own account, concluded a capitulation with the Mikado on the 6th of November. The authority of the young Mikado, who has recently become of age, is now recognized throughout the country. Henceforth the Mikado will be the actual as well as the nominal ruler. Yeddo, which heretofore has been the residence of the Tycoon, will now be the residence of the Mikado and the capital of the empire. Strong assurances have already been given to the foreign nations that the foreign treaties will be strictly observed. Several foreigners will fill high positions under the new government. The abolition of the Tycoonate and the establishment of a regular form of government may be considered as necessary reforms.

On Friday week last two men named Manhart and Leeze were out hunting deer in Indiana county, and while walking side by side the former caught one of his feet between a stone and tree, which caused him to fall, and as he fell the butt of his gun struck a stone, discharging the piece, the entire contents of which entered the body of Mr. Leeze, killing him instantly.

CONGRESSIONAL.

WASHINGTON, Jan. 11.

SENATE.—A memorial was presented from certain negroes of Georgia asserting that their life and property are not safe in the rural districts of that State, and asking for Congressional interference. Bills were introduced to settle the staff rank of the navy, and to regulate the rank of the medical staff of the navy. A bill was introduced providing for the execution of judgments in capital cases. At 3.30 P. M. the Senate went into executive session and at its close adjourned.

HOUSE.—A number of unimportant bills and resolutions were introduced and disposed of. A bill repealing the Tenure-of-Office act was introduced by Mr. Washburne, and passed under a demand for the previous question—yeas 199, nays 47. The House in Committee of the whole took up the Naval Appropriation bill, and after a long discussion reported the bill with amendment to the House. A substitute for the Consular and Deplomatic Appropriation bill was reported to the House and passed. It does not differ materially from the original bill.

WASHINGTON, Jan. 12.

The bill repealing the law as to the militia in the Southern States was delivered to the President. The passage of this bill by Congress and the action of the House yesterday upon the tenure-of-office act gives evidence of concurrence in views at last between the executive and legislative branches of the government. President Johnson signed the militia bill under written protest and in his last message recommended its repeal. He vetoed the tenure of-office bill, and in a mesage since specially recommended its repeal. Both branches of Congress have now agreed with the President as to one of these acts, and the House has by a majority of over two to one, coincided with him as to the other.

WASHINGTON, Jan. 13.

The Senate passed a bill allowing express companies, in cases where suits have been brought against them in the State courts for property lost in transitu in the South during the rebellion, to remove the same to the federal courts. A bill was also passed for the appointment of a commission to select suitable points for light houses on the the coast of Alaska. The concurrent resolution from the House, granting the use of the retunda and certain other portions of the Capitol for the use of the managers of the presidential inauguration ball was after an animated debate rejected by a vote of 31 to 22.

In the House the bill to extend the protection of the United States to the Governments of Hayti and San Domingo was laid upon the table—yeas 122, nays 36. A bill was reported to organize a temporary government for Alaska, but after some debate it was laid upon the table.

WASHINGTON, January 14.

In the Senate, the naval committee reported against the petition of Commodore R. W. Meade to be restored to the active list. A bill was reported to amend the tenure-of-office act, excepting Cabinet officers from its provisions, and giving authority to the President, under certain restrictions, to make appointments during the recess of Congress. A bill was also reported to give Mrs. Lincoln a pension. A motion was made to fix the sum at $5,000, but the bill was finally referred to the committee on pensions. Mr. Sumner introduced a bill prohibiting certain State officers in Kentucky and Virginia, who are disqualified by the fourteenth amendment, from exercising their official functions. Referred to the judiciary committee.

In the House a number of bills were introduced and referred. The committee on elections reported that Mr. Switzler, of Missouri, was entitled to the seat now held by Mr. Anderson. The report was laid over.

WASHINGTON, Jan. 15.

Nothing of great interest transpired in Congress to day. The bill for the relief of Sue Murphy was recommitted to the committee on claims. This, it is believed, is a death-blow to it. Both houses adjourned until Monday.

FAILURES DURING 1868.—The following table, which is compiled from the Commercial Agency Register of McKillop, Sprague & Co., Mercantile Agents, in New York, gives the number of important failures during the year 1868 in four of the principal cities in the Union. The number far overreaches that of any preceding year, which is caused partly by the advantages given to debtors by the bankrupt act:

	New York.	Phila.	Boston.	Balt.	Total.
Clothing	27	7	6	2	42
Commission	36	1	4	7	48
Brokers	12	2	2	3	19
Dry goods	30	14	3	3	49
Grocers	10	2	2	3	17
Liquors	12	1	1	1	15
Tailors	13	3	4	1	19
Hatters	9	1	2	1	13
Fancy goods	35	9	9	3	55
Jewelry	6	0	1	1	9
Boots & Shoes	16	4	9	3	32
Hardware	11	3	0	1	15
Coal dealers	6	0	0	1	10
Miscellaneous	79	16	17	9	112
Total	295	63	59	37	454

The number of large failures from the first of November, 1868, to the present time exceeds by fifty per cent. the number during the same length of time during the crisis in 1858.

THE TORTUGAS PRISONERS.—We observe that strenuous efforts are being made to induce the President to pardon the men who were convicted of complicity in the Lincoln assassination, and who since their conviction, have been confined at the Dry Tortugas. The numerously signed petitions have been referred by the President to the Attorney General, who it is to be hoped will give the subject his early attention. There never was a reason, save that of preconcerted partisan malignity, why Spangler and the other Tortugas prisoners should have been convicted. The evidence against them was of the most trivial character, and the verdict of the court was regarded at the time of its rendition as one of the most extraordinary on record.

NEWS IN BRIEF.

It can be stated, with authority, that the President will soon pardon Dr. Mudd, one of the convicted conspirators. The application made in Dr. Mudd's behalf by the conservative Congressmen and other public men has been successful, and the papers of release are even now being prepared, and in a a day or two will be published.

A DESPERATE PURSUIT.—General McLaughlin, commanding a detachment of troops at Camp Salubrity, La., had a lively chase the other day after one Kimball, a desperado who has been for two years a fugitive from justice under indictment for murder. He came upon Kemball in the road both mounted and armed, and immediately rode for him. Kemball led him a chase through the woods for a mile, when his horse was bogged in a slough, and the, murderer fell off.—Scrambling on the other side he screened himself behind his horse, and when the General rode up, called upon him to surrender. The General remarked that was just what he wanted of Kimball when the latter fired. Three or four shots were exchanged, when Kimball said he would surrender, and threw down his pistol; but just as the General dismounted, he caught up his arms, mounted his horse, and rode off. Gen. McLaughlin pursued, and there was a running fight through the woods, each shooting at the other, until at last Kimball's pistol missed fire, on the last charge, and his pursuer shot him dead.

FOR SALE.—An excellent CABINET ORGAN, in Walnut case, with two sets of Reeds and two Stops. Any person wishing to examine the instrument, can do so by calling at jan22tf THIS OFFICE.

CHURCH DEDICATION.—The German Reformed Church, at Pleasantville, this county, which was built during the summer and autumn of last year, was dedicated to the worship of the Triune God, on Saturday, the 16th instant. The pastor, Rev. C. U. Heilman, was assisted in the consecratory services by Rev. N. H. Skyles and Rev. Wm. M. Deatrick. The Church edifice is a neat and handsome structure, forty feet in length by thirty-four feet in breadth. It is said to be the best church edifice in St. Clair township. The crowd of persons in attendance upon the dedication was very large.

TOE TIPPING.—The brave lads and fair lassies of the "*Foot*," "tipped the light fantastic *toe*" at the Washington Hotel, one night last week. Everything to make the guests comfortable and happy was done by "mine host" of the Washington, and the good folks enjoyed themselves so hugely that the evening's exercises were prolonged to the wee small hours of the morning. Everything passed off pleasantly. A ball in Redford is a rare thing and its occurrence is worth noting.

GOOD HAMS.—After hams have been smoked, take them down and thoroughly rub the flesh part with molasses, then immediately apply ground or powdered pepper, by sprinkling on as much as will stick to the molasses, when they must be hung up again to dry. Hams treated in this manner will keep perfectly sweet for several years. This must be done before the fly deposits its egg, for after that is done there is nothing will stop their ravages.

HOW TO KILL A TOWN.—The Dubuque *Herald* gives the following receipt for knocking a town stiff and dead, which we think is so applicable to our own town that we transfer it to our columns: "If you wish to kill off a town, put up no more buildings than you are obliged to occupy yourself.—If you should happen to have an empty building, and any one should want to rent, ask about three times its actual value. Look at every new comer with a scowl. Turn a cold shoulder to every business man or mechanic seeking a home among you. Go abroad for wares rather than purchase of your own merchants or manufacturers at the same prices. Refuse to advertise, so that persons at a distance will not suppose any business is being done in your town. A prompt and close observance of these rules will ruin any town in two years."

THE RAT NUISANCE.—We clip the following recipe for destroying rats, from the Harrisburg daily *Telegraph*. It is worth double the price for a years subscription to any farmar or housekeeper in the country. It will banish every rat:

"Catching rats is often difficult, as old rats are proverbially cunning.—Laying around poison is dangerous not alone, but also objectionable, for the reason that rats may die at inaccessible spots and contaminate the atmosphere with their well known detestable odor. A better plan has been adopted by one of our correspondents, by which he takes advantage of the cunning habits of rats. He covers the floor near the hole with a thin layer of moist caustic potash; when the rats walk on this it makes their feet sore; these they lick with their tongues; it makes their mouth sore, and the result is they shun this locality, not alone, but appear to tell all the neighboring rats about it, and eventually the house is abandoned by them, notwithstanding the neighborhood may be teeming with rats.

THE PETROLEUM FLUID manufactured by J. J. Palmer & Co., Pittsburg, under Letters Patent supplies a necessity as well as a household convenience. It has been in use more than a year and is growing in favor wherever used. It makes the neatest, and in every respect, the best light, no offensiva odor, no smoke, no grease to soil garments, no danger from explosions in lamps, does not injure weak eyes, gives a softer light than Kerosene, can be used with or without chimney, can be burned in any lamp with the trifling expense of changing burners. It is cheaper than any light except day-light. All who use it will endorse all we say. The following opinion, one of many we have seen is worthy of attention.

To whom it may concern:—This is to certify that I have used the Petroleum Fluid in my house for some time, with entire Satisfaction. It not only affords a clear white light, but is perfectly safe being by me regarded as non-explosive. J. H. PALMER,
Inspector Board Fire underwriter for the city of Buffalo, N. Y.

THE MAMMOTH CAVE.—*Extract from a private letter.*— * * * * * We groped about for many hours in this wonderful place. I never saw anything like it. The freaks of nature displayed here are very strange, and strike the beholder with awe. But the air in some parts of the cave is close and stifling, and when we came out I found myself saddled with a terrible fever, which entirely prostrated me. The physician had never seen a case like it before, and no remedy he prescribed seemed to do the least good. My life was despaired of. Mrs. Wilson, with whom I was residing, had in the house a bottle of Planation Bitters, and she insisted I should try it, for she said she knew it to be a certain cure in all cases of fever, debility, ague, dyspepsia, &c. I had but little faith, but finally consented to try it as a last resort. In less than three hours after my first dose my fever left me; in two days I was sitting up, and before Saturday night I was as well as ever. I tell you all this that you may know how to act in any case of fever or any similar disease. I firmly believe the Plantation Bitters saved my life. * * * * * In my next I will tell you about the Cave in in detail. A. J. P.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

ORGAN MUSIC.—One of the great obstacles in the encouragement of a young would-be organists, is the inaccessability of the large church organs to any but the organist of the society, who is certainly privileged in having such an instrument at his command. He, even, is debarred from practising in the winter season, owing to the absence of warmth in the edifice on secular days. A celebrated European organist, while recently examining and performing upon one of Messrs. S. D. & H. W. Smith's larger sized American Organs, remarked that he was fully convinced that for the practice of organ music and development of contrasts in registration and blending of stops, these *peculiar* instruments were the best he had ever met with, which would serve to develop the integrity of the player, especially the student, who would, with remarkable ease, transfer with practical advantage his experience thus obtained to the largest pipe organ and at the same time have the convenience of practising at home. The contrast in the voicing of the stops in Messrs. Smith's organs is so marked, the shades of expression so delicate, and the gradations of power so entirely under the control, that an indefinite variety in the combination may be obtained. The manipulation and response are so free, that not only may the lighter styles of organ music be satisfactorily performed, but transcriptions from the popular orchestral overtures may be executed with the finest effects, while the small amount of space which they occupy in the drawing-room or parlor, commend them to all who are interested in organ music.

SAGE ADVICE.—Never pay a bill on first presentation—it would look as if you were ostentatious of honesty. At the second time of presenting you may consider about it, and say "call again." Third or fourth time you may be either not at home or out of money, and should the creditor call a fifth you may have a fair reason to be offended at his pertinacity, and not pay the bill at all.

DESTRUCTIVE FIRE.—The elegant marble building, corner of Ninth and Chestnut streets, Philadelphia, occupied by Messrs. J. E. Caldwell & Co., Howell & Brother, and by J. E. & E. B. Orne, was entirely destroyed by fire, on Monday morning of last week, involving a loss to the owners and occupiers of one million three hundred thousand dollars. The fire is said to have originated from the bursting of one of the boilers in the basement, from which heat was supplied to the edifice. The building was the handsomest structure in the city, and its destruction is to be universally regretted. The insurance on the building, stock, &c., of the firms above mentioned is large, but insufficient to cover the loss sustained.

It is feared that two of the persons in the employ of Mr. Caldwell, who were in the store when the fire occurred, have perished in the flames.

The New Orleans *Picayune*, of the 5th instant, learns by telegram that Captain Wm. Perry, of that city, a gentleman of irreproachable character, was shot and killed by the United States soldiers at Jefferson, Texas, on the night of the 2d inst., by "mistake," as the soldiers say. The *Picayune* supposes Mr. Perry to have been shot and killed in one of the military raids now so common in Texas, and queries "Is this a free country?"

DIED.

COMPHER—On Wednesday, Dec. 30th, 1868, at his residence in the borough of Bedford, John P. N. Scott Compher, M. D., aged 52 years, 4 months and 21 days.

Deceased was the son of General William Compher, who, for many years occupied a prominent position in both the civil and military history of Bedford county. Dr. Compher received a thorough classical education, after which he graduated at the Medical School at Lexington, Ky., being awarded the highest honors. He practiced his profession, with great success, the field of his labors frequently extending over the entire county. He was profoundly learned in medical science, and his judgment on critical points was always held in great respect by his professional brethren. In early life he devoted much of his time to literary pursuits, and without publishing much of what he wrote, he was known and admired by a large circle of appreciating friends, as a scholar, a critic and a poet. He was also prominent in the politics of this and neighboring counties. Unlike the trimmers who so greatly control political affairs, he was constant to principle and deemed it a sacred duty to cling to that, no matter what associates it brought him or what friends it divided from him. In this, as in the whole tenor of his life, was found the assurance of an honest man. About one year ago his health began to fail, and he announced to his friends, with the calmness of one who did not fear to die, that he believed his end to be rapidly approaching. He was attacked by the fell destroyer, consumption, and as the dying year sighed away its last hours upon the bosom of the December wind, he fell peacefully asleep in the arms of that serene and beautiful angel sent to relieve him of all his mortal pain, closing his eyes in the blessed hope of a bright immortality in the morning of the Resurrection. He bade farewell to all earthly things, with these words, so expressive of the fact that he had made his peace with God, (the last he ever uttered) "Trusting in God through Christ."

MONTHLY
TRADE CIRCULAR,
FOR JANUARY, 1869.
CONTAINING a list of valuable and useful articles for sale at ONE DOLLAR each; also, liberal inducements for forming Clubs.
It also contains information, which, we think, will be important to any person sending money to the Gift Enterprise One Dollar Concerns.
It is the opinion of some of our City and State officials, that if this circular is circulated in all parts of the country, it would be the means of saving a great deal of money, which is now lost by sending to these unlawful concerns. On account of our immense trade, and of the depreciation in Merchandise, we are now offering to Agents better inducements than ever before offered. Copies sent free to any address. ANDREWS & CO., 54 Elm St., (formerly 106 Sudbury St.,) Boston, Mass.

AGENTS WANTED FOR THE AMERICAN YEAR BOOK AND NATIONAL REGISTER for 1869. Astronomical, Historical, Political, Financial, Commercial, Agricultural, Educational, Religious. EASTMAN & KENDALL.
65 Hanover Street, Boston, Massachusetts, Licensed Wholesale Dealers by the U. S. Established 1864.
The goods sold by us are described in printed slips or checks, which are sent to any address at the rate of ten cents each, in clubs of ten, twenty, thirty, forty, sixty, one hundred, one hundred and fifty, two hundred, &c. For a dollar the receiver can buy the article described in the check, or exchange it for any one of two or three hundred other articles in our circular. As a guarantee of the worth of every article sold by us, any article on our checks can be exhanged for a White Bed Quilt or a Silver Plated Revolving Table Castor, with Five Bottles. Read what the great paper of the Northwest, Toledo Blade (Nasby's paper), says of us:—
"What We Saw at The Hub.—Curiosity led us, while recently in Boston, to visit the dollar establishment of Messrs. Eastman & Kendall. Their trade has become so immense that they now occupy four stories in the elegant block No. 65 Hanover Street. The name of this firm has become as familiar as household words throughout the Middle and Western States, while as prompt and honorable business men they are endorsed by the best firms in their own city. Their Club system of selling goods has done more, we believe, during the past few years to keep down the prices of domestic articles in every day use, than all other influences combined. Most of their goods are manufactured expressly for them, as, for instance, cutlery made to their order in Sheffield, England, and imported in large quantities for their dollar trade alone."
Now is the time to get signers and send in clubs. Ladies specially wanted as agents.
Partial list of articles allowed as commission to any one sending in clubs:—
Club Of Thirty. [$3.] 21 yards of elegant bleached or unbleached cotton cloth. Photograph album, 100 pictures, elegant morocco binding, revolving oval band, silver plated table castor, 5 bottled, ladies' dress pattern, a ladie's richly-ornamented black walnut writing desk, fancy cassimere pants pattern, large white all linen table cover, white lancaster counterpane, 20 yards calico, alhambra red quilt, ladies' morocco shopping bag, good cottage clock.
Club Of Sixty. [$6.] 42 yards bleached or unbleached cotton cloth, fashionable dress pattern, 3 1-2 yards wool cassimere for pants and vest pattern, fashionable woolen shawl. White marseilles counterpane, lady's large genuine morocco shopping bag, lady's fashionable cloak pattern, pair good white woolen blankets, black alpaca dress pattern, 4 yards double width waterproof cloaking, 6 yards farmers' good wool frocking, set misses furs muff and collar.
Club Of One Hundred. [$10.] 66 yards good bleached or unbleached cotton cloth, one yard wide, lady's or gent's new silver hunting case watch, fashionable thibet dress pattern, elegant black alpaca dress pattern, one pair of good white woolen blankets, large size, ladies' fashionable double woolen shawl, two large, fine, bleached linen table covers, with one dozen large sized dinner napkins to match, 25 yards hemp carpeting, 4 1-2 yards fine cassimere for suit, one dozen ivory handled steel bladed knives and forks, one dozen Rogers' best silver plated forks on white metal, portable sewing and embroidering machine, 7 1-2 yards double-width waterproof cloaking, set of furs, muff and collar
It is impossible to give a complete list of goods, but agents desiring articles not named above, will please mention them, and we will accommodate them if possible. If you have a club ready, or intend to raise one for any other house, don't fail to send it to us, and at the same time ask for our New Circular and Mammoth Exchange List. Parties acting as agents for other dollar houses in this city, will please send us their address, and that of a dozen or so of their male and female friends, as we can make it for their advantage to do so.—Male and female agents wanted as usual.
SEND MONEY IN REGISTERED LETTERS in every instance, and we guarantee that it will come perfectly safe.
N. B. Our sale should not be classed with dollar jewelry sales and gift enterprises. Send to us for decision respecting our business by the Commissioner of Internal Revenue, dated Washington, Nov. 4, 1868. If you want prompt returns for your money, send your clubs to

SOMETHING NEW AND USEFUL.—A New Era in Music. Popular Music at Popular Prices. "Hitchcock's Half Dime Series of Music for the Million." No.

Sewing Machines.

$25! $25!

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

THE GREAT

AMERICAN COMBINATION

Button Hole Overseaming

AND

SEWING MACHINE.

Its Wonderful Popularity Conclusive Proof of its Great Merit.

The increase in the demand for this valuable machine has been TEN FOLD during the last seven months of its first year before the public.

This *grand and surprising success is unprecedented* in the history of sewing-machines, and we feel fully warranted in claiming that

IT HAS NO EQUAL.

BEING ABSOLUTELY THE BEST

FAMILY MACHINE

IN THE WORLD,

And Intrinsically the Cheapest.

It is really two machines combined in one, (by a simple and beautiful mechanical arrangement,) making both the Shuttle or Lock-stitch, and the Overseaming and Button-hole stitch, with equal facility and perfection. It executes in the *very best manner* every variety of sewing, such as Hemming, Felling, Corking, Tucking, Stitching, Braiding and Quilting, Gathering and sewing on, (done at the same time,) and in addition, Overseams, Embroiders on the edge, and makes beautiful Button and Eyelet-holes in all fabrics.

Every Machine is warranted by the Company, or its Agents, to give entire satisfaction.

Circulars, with full particulars and samples of work done on this Machine, can be had on application at the Salesrooms of

OUR NEW

FAMILY

SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. Or communications may be addressed to

NATURE'S GREAT RESTORER.

SCHEETZ'S

CELEBRATED

BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

MANHOOD: HOW LOST, HOW RESTORED. Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radical cure (without medicine) of SPERMATORRHŒA, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriages, etc.; also, CONSUMPTION, EPILEPSY and FITS, induced by self-indulgence or sexual extravagance.

☞ Price in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

☞ This Lecture should be in the hands of every youth and every man in the land

AYER'S

HAIR VIGOR,

FOR THE RENOVATION OF THE HAIR.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,

For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The numberless instances of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had whol
